Bootstrap	MySql
MUI Developer	Html
Css	Git hub
Flexbox	Mobile-first design
chrome Dev-tools	visual Studio

### PROFESSIONAL SKILL

- Communication
- Time Management
- Team Collaboration
- Problem-Solving
- Critical & Strategic Thinking
- Technology Adaptability

### COURSES

FRONT END DEVELOPER	BESANT TECHNOLOGIES PVT LTD
6 MONTHS	

### WORK EXPERIENCE

FRONTEND DEVELOPER	BESANT TECHNOLOGIES PVT LTD
6 MONTHS ( INTERSHIP )	

### PROJECTS

#### BOSS ACADEMY (LANDING PAGE) - LINK ADDED

##### Description:

Designed and developed a responsive landing page using HTML, CSS, JavaScript, and Bootstrap. The project focused on creating a visually appealing, user-friendly interface with responsive design principles to ensure seamless functionality across various devices and screen sizes.

### Features:

- Responsive Layout: Used Bootstrap grid system and media queries for responsiveness across mobile, tablet, and desktop devices.
- Interactive Elements: Integrated JavaScript to enable smooth scroll animations, navigation toggling, and button interactions.
- Modern UI Design: Employed CSS styling and Bootstrap components for a polished, professional aesthetic with a focus on color harmony, typography, and layout balance.

### Technologies Used:

- HTML: Structured the page layout with semantic elements for better readability and accessibility.
  - CSS: Enhanced visual appeal with custom styling and responsive adjustments.
  - JavaScript: Added interactivity, form validation, and animation effects for an engaging user experience.
  - Bootstrap: Utilized pre-built components and grid system to streamline development and enhance responsiveness.
- 

## AUTO CHAT APPLICATION

### Description:

Developed a responsive auto chat application using ReactJS to simulate automated conversation flows. Designed to provide instant responses, improving user engagement and enhancing the user experience.

### Features:

- Real-time message handling with automated responses.
- Dynamic UI/UX design with responsive layouts for both desktop and mobile.
- Efficient state management using React hooks for smooth message flow.
- Integration with APIs (if applicable) for real-time data fetching.

### Technologies Used:

- ReactJS, JavaScript, HTML, CSS.
-
